

SUMUKHA KB

Front end developer with nearly 3 years of experience.

EXPERIENCE

Cross Hurdle System, Bengaluru — Full Stack Developer

AUG 2022 - PRESENT

Client :- ThoughtClan Company

Role :- Front end developer(Next.js)

Responsibilities :-

- Spearheaded the development of advanced search functionality, significantly improving search performance and reducing server load.
- Implemented multiple components on a single page using Next.js dynamic loading techniques, ensuring optimal page load times.
- Enhanced component performance through memoization and server response caching, further optimizing the user experience.

Client:- Hindustan Unilever(UniOps) Company

Role :- Front end developer(Next.js)

Responsibilities :-

- Designed and developed visually appealing web pages, resulting in increased user engagement in Asia and African countries and other regions.
- Enhanced performance through Static Site Regeneration (SSG) and load time optimization techniques for image-heavy pages.
- Implemented critical features such as sorting, filtering, and search functionality within the Pinterest-like platform itself, enhancing overall project efficiency.
- Introduced a Pinterest-like functionality with integrated sorting options, enabling the marketing team to pin other users. This innovative feature streamlined marketing efforts, significantly improving marketing team efficiency and offering a dynamic way to promote products.

Beauty Wall Spot, Mangalore — *Front End Developer*

JUL 2021- AUG 2022 (1.2 years)

- Redesigned and developed eye-catching websites, including Ramakrishna Ashrama and Canara Evening College, significantly increasing user engagement and revenue.
- Leveraged technologies like Bootstrap, GSAP, JavaScript, and WordPress to create captivating web experiences.
- Developed a customized Webpack setup for projects built with WordPress, JavaScript, Sass, and Bootstrap, facilitating auto-reloading and minification of CSS and JavaScript. This enhancement greatly improved developer efficiency and project optimization.

Moonhive, Thiruvananthapuram — *Intern(F.E)*

APR 2021 - JUL 2021

- Joined the company as a front-end intern and embarked on a journey of valuable industry experience.
- Initiated by learning Angular, a technology vital to the company's needs.
- Subsequently, contributed to the development of a Next.js-based course selling website, which was a SASS (Software as a Service) product. This hands-on experience allowed me to apply and reinforce my newly acquired skills, adding real-world practicality to my learning journey.
